JETTING

By fibre blowers. For fibre blowers.

JetLogger

JetLogger - *No more blame game*

JetLogger is a professional documentation system for the installer who need an efficient and professional electronic documentation of the cable blowing process.

JetLogger is developed together with installers and network owners and can be used with the Jetting cable blowing machines models MJet V0, V0 HD, MJet V1 and MJet V3 prepared for JetLogger.

JETLOGGER for V0 and V0 HD, MJet V1 and MJet V3

- Individual input describing the job, cable and pipe/duct.
- Automatic input of temperature, humidity and the exact position by GPS.
- Monitoring every 1.0 m:
    - The air pressure
    - Speed
    - Distance
    - Pushing force
- These parameters are presented live on the tablet giving the user a full view over the process.
- Automatic safety shutdown if optimal pushing force is exceeded .
- A protocol in PDF format can be saved and possibly sent to the network owner.
- Memory for most used Cable and Duct data.
- Independent of the Cloud.
- Via the GPS position a link to Google map makes it possible to see the exact location.
- Built-in 4G modem with SIM card slot.
- Supports all cloud services such as dropbox, onedrive, google drive, apple icloud etc.

OCPC

In the JetLogger you find the OCPC system (Optimal Cable Pipe Combination).
The OCPC system is an intelligent system helping you to get the optimal pipe and cable combination for optimal blowing conditions. (Fill factor).
