# 1RU Fiber Management Guide

Description

The 1RU fiber management guide can be retrofitted to any standard 1RU panel quickly and easily, its design is such that it protects the bend radius of exiting patch cords at all times, the ability to fit the guide to any existing installation gives great flexibility, plus adds protection and improved cable management.

Features and Benefits

- Fits to most 1RU panels
- Left and Right mountable
- Protects Bend radius

Applications

- Data centers, premise installations, telecommunication networks
- Data communication
- Ethernet, Fiber Channel, ATM, LAN, MAN and WAN
- Indoor / outdoor applications

AFL HYPERSCALE®

Specifications

| ELEMENT	CHARACTERISTIC
